

Engineering 11/12 – Chemical Engineering - Group Project

Deliverable: In Class Power Point Presentation (with something to say) and a 1 page write up

Group: 1 to 3 members

Presentation: Must speak 'Good English' – 1 person can do all the talking. However, it is up to the group to prove to me that everyone is involved equally. Must be presented to the whole class.

Topic:

Pick a product or process from the following categories and provide a power point 'show and tell'. You may use 5 to 10 mins (with a Q & A period). I want to know everything about the topic of your choice.

Categories: Engineered/Processed Foods, Drinks, or Emergency Foods.
